PROFESSIONAL SUMMARY

Computer Science graduate (B.Tech, IoT & Cyber Security) looking to start a career in data analytics. Comfortable with SQL, MySQL, Python, Pandas, Power BI and Excel through portfolio projects. Work so far includes cleaning and visualizing structured data, creating analytical views in MySQL, running statistical analysis and regression, and building Power BI dashboards for KPI reporting. Currently a Business Development Executive, dealing with customers, keeping records and working with internal teams.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Statistical Analysis, Regression Analysis, KPI Analysis, Trend Analysis, Customer Analysis, Product Analysis, Pricing Analysis, Business Reporting

Analytics Techniques: Customer Segmentation, RFM Analysis, Customer Lifetime Value, Cohort Analysis, Retention Analysis, Purchase Behavior Analysis, Order-Basket Analysis, Product Sales Velocity, ABC/Pareto Analysis, Inventory Risk Analysis, Monthly Sales Analysis

SQL & Database: MySQL, SQL, Relational Databases, CTEs, Window Functions, RANK(), NTILE(), LAG(), JOINs, LEFT JOINs, Aggregations, GROUP BY, Date-Based Analysis, Analytical Views

Python: Python, Pandas, NumPy, Matplotlib, Seaborn, SciPy, Statsmodels, Jupyter Notebook

BI & Visualization: Power BI, Interactive Dashboards, KPI Reporting, Data Visualization, Filters and Slicers

Excel: Data Cleaning, Data Analysis, Reporting

Tools: Git, GitHub

Business Skills: Understanding Business Requirements, Reporting, Documentation, Record Keeping, Customer Communication, Follow-Up

PROJECTS

PropertyLens: Residential Real Estate Market & Pricing Analytics | Oct 2026

Python, Pandas, NumPy, Matplotlib, Seaborn, SciPy, Statsmodels | Individual Portfolio Project

- Cleaned a Gurgaon residential real estate dataset of 19,515 listings: removed 5,290 duplicates (27%) and kept 14,225 records for analysis.
- Did exploratory data analysis across 14,225 records on price, area, BHK configuration, locality-level pricing, builder listings and RERA approval status.
- Compared the two property statuses, ready-to-move and under-construction, on median price, size and price per square foot.
- Used statistical analysis and regression to check how price relates to four factors: area, BHK configuration, property status and RERA approval.
- Made eight visualizations of price distributions, locality comparisons, property configurations and pricing patterns. Findings are documented in a Jupyter Notebook and GitHub README.

E-Commerce Sales & Customer Analytics System | Sep 2026 – Oct 2026

MySQL, SQL, Power BI | Individual Portfolio Project using synthetic e-commerce data (1,500 orders)

- Built a five-table relational database, ecommerce_analytics, in MySQL with 250 customers, 40 products, 1,500 orders, 2,150 order items and 1,500 payments.
- Wrote SQL queries and analytical views covering sales, customers, products, payments, inventory and cancellations across 1,500 orders, using CTEs, window functions (RANK(), NTILE(), LAG()), JOINs, aggregations and date-based analysis.
- Analyzed customer segments, RFM, lifetime value, cohort retention, purchase behavior, product sales velocity, ABC/Pareto classification, inventory risk and monthly sales.
- Built a two-page Power BI dashboard (Executive Overview, Customer & Product Analysis) with KPI cards, date filters, revenue trends, order status, payment analysis, customer segments, top customers and product performance.
- On the synthetic data: about ₹29 lakh realized revenue, 1,500 orders, 8% cancellation rate and ₹2,302 average order value.

PROFESSIONAL EXPERIENCE

Business Development Executive | Shiksha Consulting, Bhopal | Feb 2025 – Present

- Communicate with customers over three channels: phone, email and messaging platforms.
- Understand each customer's requirements and respond to their queries and requests clearly.
- Follow up on open queries and requests, and see each one through to resolution.
- Coordinate with internal teams when a customer issue needs input from others.
- Maintain accurate records and support regular tracking and documentation.
- Work in a target-driven environment, taking ownership of tasks and staying consistent.

EDUCATION

B.Tech in Computer Science Engineering (IoT & Cyber Security) | 2021 – 2025

Lakshmi Narain College of Technology, Bhopal | CGPA: 7.81

Class XII | Govt. Subhash H. Sec. Excellence School, Bhopal | 2020 – 2021 | 84.8%

Class X | Govt. Subhash H. Sec. Excellence School, Bhopal | 2018 – 2019 | 85.2%

CERTIFICATIONS

Data Analytics Job Simulation – Deloitte | AWS Cloud Engineer – SkillMap | Java Full Stack – Wipro | HTML5/CSS3 – Infosys | Cyber Security Packet Tracer – Cisco
